PM13
Page 21

NKU32RFF
Page 32-33

Following extensive research and testing, we have introduced ReFlo Technology to our VersaCare range.

ReFlo Technology uses the highest quality recycled plastic within our manufacturing processes, delivering the same Numatic reliability, durability and quality as always. Providing a tough Structofoam construction, ReFlo Technology ensures our products are both sustainably engineered and built to last.

New Product Innovation

PM13
Our latest addition to the Pro-Matic Range, the PM13 offers a fully configurable cleaning system to suit operator usability and productivity.

NKU32RFF
Versatile and space-saving hotel trolley range, now made with ReFlo Technology, offering a more sustainable housekeeping solution.

EM3
Benefiting from high-quality recycled plastic using ReFlo Technology and a tough Structofoam construction, making it durable, easy to clean and built to last.

SMX1415
Meeting the precise requirements of any user, in any environment, for any application; ensuring the right trolley for the right job. Made from ReFlo Technology and tough, Structofoam construction.

MultiMop MM30G Professional

The professional MultiMop is one of the simplest, most effective smaller area mopping systems you will ever use; super clean floors... twice as fast... not to mention walls or even ceilings, it's the thoughtful design concept that makes it so outstanding.

With a unique giant 350mm sponge mop that will outperform the rest, the sponge absorbs more than 10 times its own weight in liquid so you can put plenty down and pick it all up again, this operational design makes it virtually self-cleaning.

OPTIONAL MOPS

Sponge Mop Standard

Scourer Mop (Optional)

Deep Clean Mop (Optional)

COMPACT & Convenient

MultiMop is one of the simplest, most effective smaller area mopping systems.

PROMOTES HYGIENE & Prevents Contamination

Industry colour-coding for effective infection control.

POWERFUL CLEANING Results

Super clean floors, twice as fast...not to mention walls or even ceilings.

EASE of Transit

The pail runs on 4 twin wheel castors, no more lifting buckets all the time.

STAY CLEANING for Longer

Huge 30L capacity, less time emptying, more time cleaning.

Colour-coded Handles

Folding Press and Self-cleaning System

Easy Velcro Mop Attachment

Model	MM30G
Capacity (L)	30
Pad Size (MM)	350
Mop Type	Sponge
Castors (MM)	4x50
Dimensions WxLxH (MM)	340x475x320

MM30G (Shown with Optional DTK10 Mop Set)

Hi-Bak HB1812R Professional

The HB1812R represents a super compact, truly professional dual compartment mopping unit.

Our unique parabolic separator allows a generous 18L front clean water container and 12L dirty water section to the rear.

The 60 / 40% split in container capacity is genuinely practical, allowing larger areas to be cleaned before emptying and refilling is required.

BUILT to Last

Chemical-resistant, heavy-duty Structofoam construction for easy-clean design.

SUSTAINABLY Engineered

Made from high-quality recycled plastic using ReFlo Technology.

PREVENTS Contamination

Parabolic separator keeps clean and dirty water separate.

INCREASE Productivity

Vertical Press allows use of both Kentucky style and Flat mops.

STAY CLEANING for Longer

Huge 30L capacity, less time emptying, more time cleaning.

HB1812R High Press Mounting

HB1812R Low Press Mounting for Storage

Sturdy Folding Handle

Colour-coded Parabolic Water Separator

Model	HB1812R
Capacity (L)	18 / 12, 30
Press	Vertical
Castors (MM)	4x75
Dimensions WxLxH (MM)	410x560x800

MMB1616 MidMop

The MidMop is always on-hand and easily stored, compact design providing a go-anywhere twin-bucket mopping system.

Versatile convenience with the mop press conveniently mounted in the middle, above the clean and dirty water buckets. This provides the advantage of full access to both buckets all of the time, with the press in the optimum position. Both 16L buckets can be easily removed and replaced without moving the mop press.

BUILT to Last
Chemical-resistant, heavy-duty Structofoam construction for easy-clean design.

SUSTAINABLY Engineered
Made from high-quality recycled plastic using ReFlo Technology.

PREVENTS Contamination
Integrated diverter redirects dirty water into separate bucket.

INCREASE Productivity
Vertical Press allows use of both Kentucky style and Flat mops.

STAY CLEANING for Longer
Huge 16L clean and 16L dirty capacity less time emptying, more time cleaning.

MidMop Create your Own

A range of accessories allow the user to create a MidMop unit that precisely suits the environment to be cleaned.

DTK3 Hang-on

DTK13G Hang-on Pump Action

TMR2815 / TMR2815W **TwinMop**

The TwinMop series was a world first, being compact in size, robust in construction and incorporating our unique AWS (Automatic Water Separation) system.

The TMR2815W has all the features of the TMR2815 but incorporates a clever on-board 30L lidded waste bin and deep storage tray, allowing increased scope within the cleaning regime.

INCREASE Productivity

Exceptionally efficient with use of complete mop selection.

SUSTAINABLY Engineered

Made from high-quality recycled plastic using ReFlo Technology.

BUILT to Last

Chemical-resistant, heavy-duty Structofoam construction for easy-clean design.

PREVENTS Contamination

Dirty water is simply diverted to the dirty water bucket keeping your clean water, clean.

EASE of Transit

The all-terrain fixed transit wheels option makes covering rough ground a breeze.

Model	TMR2815	TMR2815W

OPTIONAL MOP SETS

See pages 40-41 for full mop sets, holders and mops

ECO-Matic Cleaning Trolley

Engineered from the highest quality recycled plastic using environmentally sustainable ReFlo Technology, the ECO-Matic range benefits from 100% Structofoam construction, making it tough, easy to clean and built to last.

Attention to detail and practical engineering ensure complete customer satisfaction in operation, versatility and convenience.

COMPACT Design

Small cleaning trolley, easy to store and unobtrusive in use.

CONVENIENT Storage

Easy-access, open-shelves or tray storage options.

BUILT to Last

Unique Structofoam construction using co-polymers for high-impact strength.

SUSTAINABLY Engineered

Made from high-quality recycled plastic using ReFlo Technology.

THE RIGHT CLEANING TROLLEY for the Right Job

Nu-Design
Bespoke Janitorial

Nu-Design guides you through the product configuration process, providing a visual output and configuration breakdown at each selection. The result; a reliable, functional and innovative cleaning system that fits your needs precisely.

Individual Environments Demand Individual Cleaning Solutions

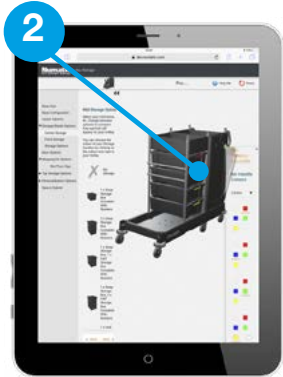

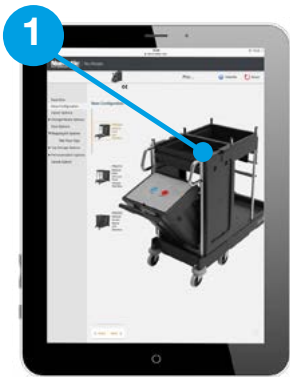

Finding a janitorial system that fits your needs completely can be a real challenge. Giving total freedom of choice to the user, Nu-Design offers the ultimate solution.

How it works

1. Select your trolley base and castor options
2. Pick storage options that meet your needs exactly
3. Choose your mopping system, waste options, accessories and personalisation
4. Submit for an itemised breakdown and quote

Compatible with desktop and mobile devices

Visit: numatic.com/apps/nu-design

Poor selection and configuration lowers cleaning standards and productivity.

NEW ECO-Matic™ All-in-one Solution

The ECO-Matic™ Compact Range offers an all-in-one, ready to go compact cleaning solution.

Providing all the benefits of the EM trolley with the extra advantage of a Twist Mop Kit, Dolly Mop Bucket and 2 x 10L Buckets.

COMPACT Design

Small cleaning trolley, easy to store and unobtrusive in use.

CONVENIENT STORAGE

Easy-access, open-shelves or deep storage drawer options.

BUILT to Last

Unique Structofoam construction using co-polymers for high-impact strength.

SUSTAINABLY Engineered

Made from high-quality recycled plastic using ReFlo Technology.

THE RIGHT CLEANING TROLLEY for the Right Job

Includes: DTK9 Twist Mop Kit, Kit SRK14 and Kit SRK22.

NuBag Range

Designed to provide space saving answers in super strong but smaller sizes.

Twin waste, twin linen and twin laundry modules have always been the most popular in commercial establishments. Due to the dual end design in the NuBag range, twin split modules are also possible, incorporating waste and laundry, laundry and linen or waste and linen.

NSX240R

LLT200R

SAX120PR

TWIN Sax NSX240R

Compact mobile twin 120 litre waste trolley, fully lidded providing excellent capacity for normal waste collection and disposal.

TWIN Linen LLT200R

Structurofoam chassis and lidded superstructure, designed to take two full 100 Litre washable linen laundry bags. Bags can be easily colour-coded.

SINGLE Sax SAX120PR

A compact mobile 120 litre waste lidded trolley.

TWIN Bags NBT200R

There are many applications where 2 x 100 litre bags are required, especially within the hotel and care-home environment.

BIG Bags NB3002R / AT

For large laundry volumes with a 200 litre and 100 litre bag (300 litre). In addition, 2 x 100 litre bag extensions can be added, providing up to 500 litre in 4 detachable bags.

NuBag Range

Big in use, small in storage, the Servo-X trolley range will always find favour in the many locations where space is at an absolute premium.

All Servo-X trolleys can fold easily for storage and the laundry bags can be removed, incorporating drag handles and our top closure system.

Servo-X uses all the same bag sizes as our NuKeeper and NuBag units, providing total uniformity and allowing a fully integrated and co-ordinated professional approach to system planning.

NuKeeper Single & Low Level NKS Range

Compact, considered and capable...
the NuKeeper Single series will always be a
welcome addition where space is at a real premium.

Every single feature within the NuKeeper Single series (NKS) is focused on efficiency and capacity. Each NKS unit is equipped with space saving Flexi-Front system, folding laundry bags, corner buffers and heavy-duty 360° castors, rising to the challenge of tight corridors and elevators. The NKS Low Level (LL) offers a solution when greater visibility during transit is needed.

- BUILT to Last**
Unique Structofoam construction using co-polymers for high-impact strength.
- SUSTAINABLY Engineered**
Made from high-quality recycled plastic using ReFlo Technology.
- EASY Access**
Equipped with space-saving Flexi-Front system for easy compact access.
- INCREASES Productivity**
Perfect for large amounts of linen and supplies.
- TOTAL Uniformity**
Provides professional approach to integrated system planning.

NuKeeper Twin & Low Level NKT Range

The NuKeeper Twin Series is a genuine exercise in downsizing from the outside without downsizing from the inside.

The NuKeeper Twin Series (NKT) is compact in proportion whilst big on capacity. Constructed with Structofoam, using co-polymers for high-impact strength and high-quality recycled plastic with ReFlo Technology. Every detail is considered with the environment and user in mind... Flexi-Front enclosure, rotating side buffers to protect walls and doors from bumps and scrapes. Compact in size... big on storage.

NuKeeper Universal Top Tray Kits

A complete range of accessory kits provide the specification you need with no compromise.

With the NuKeeper Universal base unit selected, the user can now consider each requirement of their particular cleaning schedule. Tray Kits provide multiple storage choices and are easily removable for replenishment of consumables. Each Hood Kit has its own merits with open, lidded and secure lockable options. Adding an End Kit can further increase the versatility of each trolley, including the option of adding a mopping system or vacuum platform.

PolyStatic Professional Mops

Dust care and control is fundamental to the majority of public area cleaning programmes, as is spot cleaning when appropriate.

The PolyStatic disposable mop system, offers the best of both worlds whilst being fully cost controlled.

COMPACT & Convenient

Large enough for quick cleaning, yet compact enough to clean in tight spaces.

IDEAL FOR Spot Cleaning

Perfect for cleaning spills and marks without significant amounts of water on the floor.

USER-Friendly

The velcro mop cloth fastening couldn't be quicker or easier.

INCREASE Productivity

The more you use it, the better it works with no chemical residue left behind.

USER Comfort

Professional cleaning in comfort with the ergonomic rotating hand-hold.

PolyStatic is our original electrostatic dust control material, 100% polyester with no added chemicals it leaves no chemical residue on the floor surface, plus the more you use it, the better it works.

For dust control sweeping, the PolyMop holder is both efficient and exceptionally convenient. So, as and when time permits, clean, dust-free floor results are quick and easy to achieve, an added bonus for everybody.

SprayMop Master Professional

There are an increasing number of professional applications for spot or maintenance mopping, dedicated to keeping a visually good appearance to floor surfaces in high profile environments.

ON-BOARD Liquid Dispenser

Foot and hand-pump releases liquid as required for quick clean-ups.

MOP Backwards

The rear-operated liquid dispenser allows you to mop the room working backwards towards the exit, which keeps the mopped area clean.

USER-Friendly

The velcro and pocket mop cloth options application is quick and easy.

USER Comfort

The SpinTec ergonomic rotating hand-hold aids cleaning with professional results every time.

Fixing	Pocket	Velcro
Weight (KG)	1.1	1.1
Dimensions (H) (MM)	1400	1400

Mopping Systems

Mopping, incorporating today’s advanced technology, is both effective and efficient.

It is imperative you select the correct mopping set and mop design to suit the individual application. The type of floor to be mopped and the frequency of floor maintenance are crucial in the selection procedure, and time spent in reviewing the options is time well spent.

Vertical Press

The patented Vertical Press is a popular choice, allowing the use of both Kentucky style and Flat mops.

Can be equipped with AWS (Automatic Water Separation) system, separating your dirty water and keeping your clean water... clean (see Mopping Sets details). It is vitally important to decide between Kentucky Mopping and Flat Mopping at the very onset of the equipment selection. The press design is such as to accommodate both 400gr/450gr Kentucky Mops or our range of 40cm Flat Mops with equally good results in use.

Wide Press

The Wide Press is designed to be used exclusively with our Flat Mopping Systems.

By virtue of the unique power press operational concept, this is just about the most convenient and effective wide press design available, and can be used with our full range of Pocket or Velcro backed mop heads.

MopMatic Hands-free Mopping

MopMatic is a unique mop preparation system that allows operators to have an almost constant supply of clean, uniformly impregnated mops to carry out the task in hand. Whether the need is for cleaning or disinfecting, or a combination of the two, uniformly prepared mops leave nothing to chance.

- 1

Load the mop box with 12 clean MopMatic mop heads, pockets facing up...
- 2

Close lid, push firmly on lid and lock over all 3 latches. Ensure all latches lock down...
- 3

Turn box on its side "foot down" and open sliding door of dispensing reservoir...
- 4

Gradually pour 2 litres of the approved solution into the dispensing reservoir...
- 5

Close the sliding door and leave to soak for 10 minutes...
- 6

After 10 minutes, return pail to the lid up position, open the lid and use the Wing Mop to remove the mop head (hands-free)...
- 7

Push down to fully engage mop head in to Wing Mop pockets...
- 8

After use, place mops in appropriate dirty mop container (hands-free). Bucket can hold approximately 20-25 dirty mops.
-

Mop Holders

Choose a mopping system that suits your needs and the areas to be cleaned.

Kentucky Mops for floor washing, plenty of water down and plenty up again.
Flat Mops for high efficiency fast floor cleaning, covering large areas in double quick time.
