**Workshop equipment RSC50 2.0,
designed and manufactured at Beta's
Italian-based factories, caters for the needs
of professionals wishing to match
DESIGN, FUNCTIONALITY AND DURABILITY**

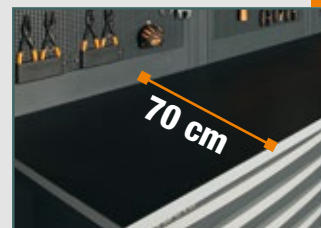

COMBINATIONS

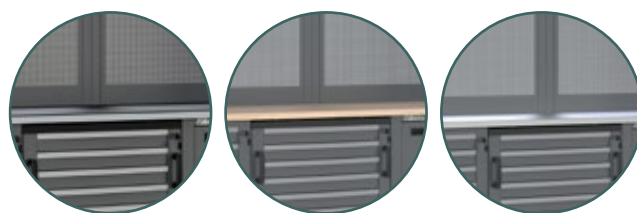

Workshop equipment RSC50 2.0 is the name for preassembled combinations developed by Beta for professionals; alternatively, it allows you to design your workplace on your own, choosing from many under-bench modules, wall-mounted cabinets and furnishing accessories.

It can be further customised with accessories, coloured drawer fronts and lights.

The sturdy **70-cm-deep worktop**,
provides a convenient work surface.
It can be fitted with a vice, thereby
allowing heavy-duty jobs to be carried out.

It is available in
**sheet metal, multi-ply wood
or stainless steel coated MDF.**

Workshop equipment RSC50 is fitted
with standard-sized drawers (588x367 mm),
which are compatible with Beta's wide range
of tool modules, available in both soft EVA
and hard ABS versions.

ASSEMBLY
